

مقالات چاپ شده انگلیسی

2016

- Seizure Duration and Hemodynamic State during Electroconvulsive Therapy: Sodium thiopental versus Propofol.
- Effect of Ondansetron in Prevention of Spinal Anesthesia – Induced Hypotension in Pregnant Women Candidate for Elective Cesarean Section.
- The effect of paracetamol versus meperidine on postoperative pain of cesarean section.
- Comparison of the effect of Dexamethasone –Metoclopramide Combination and Ondansetron in the Prevention of nausea and vomiting in cesarean section under spinal anesthesia.
- Hemodynamic responses to insertion of the laryngeal mask airway versus combitube.
- Evaluation of the relationship between age, gender, and body mass index, and lumbar facet joint pain.
- Treatment of Postoperative Pain in Pediatric Operations: Comparing the Efficiency of Bupivacaine, Bupivacaine-Dexmedetomidine and Bupivacaine- Fentanyl for Caudal Block.

2015

- Better Hemodynamic Profile of Laryngeal Mask Airway insertion Compared to Laryngoscopy and Tracheal Intubation
- Variations of blood glucose level in non-diabetic patients before and after Electroconvulsive Therapy
- Correlation between Glasgow Coma Score and Bispectral Index in Patients with Mild and Moderate Traumatic Brain Injury
- Comparison of two different doses of dexmedetomidine to attenuating cardiovascular responses during laryngoscopy and endotracheal intubation: A double blind, randomized, clinical trial study

2014

- Role of Social Intelligence in Organizational Leadership
- Role of Knowledge Management in Success of Customer Relationship Management
- Effects of Different Concentration of Fentanyl on The Incidence and Severity of Fentanyl – Induced Cough During Anesthesia Induction : A double – Blind Controlled study
- The injection rate of intravenous midazolam significantly influences the occurrence of paradoxical reaction in pediatric patients

2007

- Comparison of effects of droperidol alone and droperidol with dexamethasone for prevention of nausea and vomiting

2006

- Anaesthetists' and surgeons' estimation of preoperative anxiety by patients submitted for elective surgery in a university hospital

2004

- Prophylaxis of Postoperative Nausea and Vomiting - a Comparison of Droperidol Alone with Droperidol Plus Dexamethasone combination
